C. J. Cutting, Chairman, Publications Committee, Taunton and Somerset Hospital, Musgrove Park Branch, Taunton, Somerset TA1 3HQ, U.K.

INTERNATIONAL ADVISORY BOARD

Archives of Emergency Medicine provides a forum for the publication, dissemination and discussion of original clinical and scientific research on all aspects of the subject. Particular emphasis is placed on the acute phase of surgical, medical, paediatric, obstetric and psychiatric emergencies, especially in relation to the diagnosis and management of the acutely ill. It is intended that resuscitation be a major component of the scientific content. The Journal, which has been adopted by the British Association for Accident and Emergency Medicine and the Emergency Medicine Research Society, publishes both original papers and review articles. Case reports or preliminary communications will be accepted if sufficiently noteworthy or interesting.

Subscription information. Archives of Emergency Medicine is published quarterly (one volume per annum) and the subscription prices for 1992 are £99.00 (U.K.), £105.00 (overseas except North America) and $180.00 (U.S.A. and Canada), in all cases post free. Orders for current subscriptions and back issues should be sent to Blackwell Scientific Publications Ltd. Journal Subscriptions Department, Marston Book Services, PO Box 87, Oxford OX2 0DT, U.K. all other business correspondence, including orders for offprints and advertising space, should be addressed to Blackwell Scientific Publications Ltd, Osney Mead, Oxford OX2 0EL (Telephone [0865] 240201; Telex 83355 Medbok G; Fax [0865] 721205). The Journal is dispatched within Europe by surface mail, to other continents by various forms of air speeded delivery: to the U.S.* by air freight for forwarding by second-class post, to India by air freight for guaranteed local delivery, and to all other countries by Accelerated Surface Post.

*Post Master, send address changes to Archives of Emergency Medicine c/o Mercury Airfreight International Ltd, 2323 EF Randolph Avenue, Avenel NJ07001 (US Mailing Agent) Second Class postage paid at Rahway NJ.

This journal is printed on acid free paper.
THE ROYAL COLLEGE OF SURGEONS OF EDINBURGH
FELLOWSHIP EXAMINATION IN
ACCIDENT AND EMERGENCY MEDICINE AND SURGERY

A diet of the Fellowship Examination in Accident and Emergency Medicine and Surgery organised jointly by the Royal College of Surgeons of Edinburgh and the Royal College of Physicians of Edinburgh will be held on 10 May 1993.

This is an additional option in the present Fellowship Examination and is designed to test all aspects of the work of an Accident and Emergency Department.

Candidates must have been engaged in the study of their profession for a period of not less than four years and must have passed a Section A/Part I FRCSEd or recognised equivalent.

OR

(i) Part I MRCP (UK) or recognised equivalent:

OR

(ii) Primary FFA RCSEng or recognised equivalent (prior to 1985):

OR

(iii) Part II FFA RCSEng or recognised equivalent (with effect from 1985);

The application form, examinations calendar and Regulations are available on request from the Examinations Secretary, The Royal College of Surgeons of Edinburgh, Nicolson Street, Edinburgh EH8 9DW.

Applications for entry must be received by 26 March 1993.

Fee: £325.00
Emergency Medicine
Second Edition  Harold L May

This second edition covers the conditions you treat in the emergency department every day. All the vital information required is found quickly and easily. This two volume set is divided up into five parts and the text leads you in a logical progression from life-threatening disorders of the vital organ system, to administrative concerns. The final part illustrates common emergency procedures in an atlas format. When you need a ready reference for on-the-spot consultation or an authoritative text for comprehensive review, Emergency Medicine will provide the answers.
1992 2200 pages  600 illustrations  hardback
two volumes  0 316 55185 6 £130.00 *

Child Abuse A medical reference
Stephen Ludwig / Allan E Komberg
Is that burn accidental? What causes the damage found in the shaken baby syndrome? What physical findings are suggestive for sexual molestation? This book can help answer these and many other questions.
1992 563 pages  144 illustrated hardback
second edition  0 443 06722 9 £47.50

* Little, Brown title distributed in Europe by Churchill Livingstone

Infectious Disease in Emergency Medicine
Judith C Brillman / Ronald W Quenzer
An extremely practical aid in the treatment of patients with proven or suspected infectious diseases in the emergency setting. Written by emergency medicine and infectious disease specialists, the book also includes material on precautions for emergency physicians and patients. It is divided into the following sections: 1) General principles 2) Clinical syndromes and differential diagnoses and 3) Infectious diseases by organ system. This book addresses the challenge of dealing comprehensively with infectious disease in the emergency department.
1992 hardback  580 pages  80 illustrations
0 316 10838 3  £110.00 *

Essentials of Immediate Medical Care
C John Eaton
This is an extremely practical, comprehensive and authoritative guide to the immediate management of trauma and medical emergencies. The book is based on material originally prepared by the author for the British Association of Immediate Care (BASICS) and reflects up-to-date, safe and effective management practice in this vital area.
1992 spiral bound  584 pages  180 illustrations
0 443 04575 5  £19.50

Intensive Care Medicine
J M Rippe, R S Irwin, J S Alpert, M P Fink
One of the most comprehensive books on intensive care medicine. Coverage is extended to provide the most up-to-date authoritative guidance on both medical and surgical aspects of patient care.
1991 hardback  2100 pages  525 illustrations
second edition  0 316 74715 7  £110.00 *

Emergency Plastic Surgery
Richard J Greco
A guide to the care of wounded and burned patients within the first 24 hours after trauma or injury. This practical handbook offers all the information the physician needs to evaluate the wound and make informed decisions in the emergency setting.
1991 spiral bound  540 pages  270 illustrations
0 316 32562 7  £43.00 *

Churchill Livingstone books are available from all quality bookshops, but in case of difficulty, please write for further information to: Churchill Livingstone, Robert Stevenson House, 1-3 Baxter's Place, Edinburgh, EH1 3AF, UK.
Resuscitation Training Office Post

The British Heart Foundation is pleased to announce its decision to offer pump-priming funds to enable the creation of a Resuscitation Training Officer post. Awards are for up to £25,000 over a 2 year period and are towards the salary of the postholder. As the post must be full-time, the balance of the cost should be met by the responsible Health Authority/NHS Trust. The closing date for applications is Friday 12 February 1993. Up to ten awards will be granted to commence from April 1993.

For further information and an application form, please contact

Sam Harrison,
Cardiac Care Department,
British Heart Foundation on 071-935 0185.

  - computer-aided diagnoses, abdominal pain, 271
  - unexpected return visits to A & E, 356
- **Avulsion, fracture, rectus femoris**, 311
- **Back, pain, radiography**, 28
- **Base, acid changes, blood, CPR**, 169
- **Bee, sting, brachial block**, 369
- **Blindness, quinine-induced, management**, 317
- **Blood, acid base changes, CPR**, 169
- **Bone:**
  - fish, oesophagus, 256
  - infection, limping child, diagnosis to be considered, 323
- **Brachial block, bee sting**, 369
- **Carbon monoxide, management of moribund victim**, 208
- **Carbon monoxide poisoning, diver**, 65
- **Cardiac:**
  - arrest, flying squad response, 203
  - intra, therapy after thoracotomy, 190
- **Care, paramedic**, 252
- **Catecholamine, plasma, response, asthma**, 157
- **Catheterization, central venous, massive haemothorax**, 335
- **Cellulitis, orbital**, 143
- **Cement, skin ulceration**, 326
- **Children, fear reduction when undergoing painful procedures**, 306
- **Closure, premature, distal radial growth plate**, 9
- **Complaints, against doctors**, 134
- **Computer, diagnoses, acute abdominal pain**, 267, 271
- **Conjunctival, oxygen monitoring, trauma assessment**, 274
- **Control, airway, trauma resuscitation**, 177
- **Cornea, foreign bodies, management**, 257
- **Courses, trauma**, 258
- **CPR, acid base changes in blood**, 169
- **Crash, train, Purley, 125, 130**
- **Cutaneous myiasis, tumbu fly**, 58
- **Delays, thrombolytic treatment, myocardial infarction**, 70
- **Depression, presenting as hypochondriasis**, 69
- **Dextran, low MW, endotoxin-induced shock**, 1
- **Diagnoses, computer, abdominal pain**, 267, 271
- **Dipyridamole, overdose, myocardial infarction**, 62
- **Discharge, irregular, from A & E**, 230
- **Dislocation:**
  - intra-articular, patella, 244
  - Milch technique, 40
  - shoulder, anaesthesia, 71
  - Diver, carbon monoxide poisoning, 65
  - Dressing, wound, Flexipore 6000, 246
- **Drug:**
  - abusers, intravenous, 32
  - overdose, toxicity awareness, 214
- **Electromagnetic, pulsed energy, pre-tibial lacerations**, 335
- **Endotoxin-induced, shock, low MW dextran**, 1
- **Epidemiological, study, assault at children's A & E**, 239
- **Epilepsy, self-induced grand mal**, 367
- **Extraction, non-palpable foreign bodies**, 181
- **Fatal, childhood accidents, North Staffordshire**, 352
- **Fear, children's, reduction**, 306
- **Flexipore 6000, membrane, wound dressing**, 246
- **Flying squad, response to cardiac arrest**, 203
- **Fracture:**
  - avulsion, rectus femoris, 311
  - hip, missed, 23
Grand mal epilepsy, self-induced, 367
Growth plate, premature closure, 9
Gulf War, effects on A & E, 332
Gynaecology, reducing out-of-hours operating, 290

Haemodynamics, low MW dextran, endotoxin-induced shock, 1
Haemothorax, central venous catheterization, 335
Hand:
  applied anatomy, 14
  exposure to ionizing radiation in resuscitation room, 220
  infection, in-patient, 299
Head injury, instruction cards, 314
Healing, post-injury, role of zinc, 122
Health promotion, home accident risks, 225
Heart, needle injury, 54
Helicopter, ambulance:
  emergency calls, 280
  trauma patients, 113
Hip, fracture, missed, 23
Home, accident risks, health promotion, 225
Human immunodeficiency virus, risk factors in patients, 196
Huntingdon’s Chorea, 255
Hypochondriasis, 69

Impaction, fish bone, pharyngeal perforation, 71
Incidence, wrist injuries, children, 9
Infarction, myocardial:
  dipyridamole overdose, 62
  thrombolytic treatment delays, 70
Infection:
  bone, limping child, diagnosis to be considered, 323
  hand, in-patient, 299
Injury, prevention, Purley train crash, 125
Instruction, cards, head injury, 314
Intra-articular dislocation, patella, 244
Intracardiac therapy, after thoracotomy, 190
Intravenous drug abusers, 32
Intubation:
  ambulance personnel, 347
  device to distinguish oesophageal from tracheal, 373
Ionizing radiation, exposure to hands in resuscitation room, 220

Journal Scan 18, 73;
  19, 259
  20, 339
  21, 379

Lacerations, pre-tibial, pulsed electromagnetic energy, 335
Life support, teaching, 338
Limping, child, bone infection, diagnosis to be considered, 323
Management of:
  corneal foreign bodies, 257
  moribund carbon monoxide victim, 208
  quinine-induced blindness, 317
  teaching trauma, 334
Measurement, respiratory rate, 377
Membrane, Flexipore 6000, wound dressing, 246
Milch technique, dislocations, 40
Mini Cap III CO2 detector, 373
Missed, hip fracture, 23
Model, intracardiac therapy after thoracotomy, 190
Monitoring, conjunctival oxygen, trauma assessment, 274
Moribund, carbon monoxide victim, management of 208
Myiasis, cutaneous, tumbu fly, 58
Myocardial infarction:
  dipyridamole overdose, 62
  thrombolytic treatment delays, 70
Neck, soft tissue, X-ray, 149
Needle, injury to heart, 54
Nurses, requesting X-rays, 19

Occupational accidents, presenting to A & E, 185
Operating, out-of-hours, gynaecology, 290
Orbital, cellulitis, 143
Overdose:
  dipyridamole, myocardial infarction, 62
  toxicity awareness, 214
Oxygen, conjunctival monitoring, assessment of trauma, 274

Pain
  abdominal, computer aided diagnoses, 267, 271
  back, radiography, 28

Paramedic care, 252
Patella, intra-articular dislocation, 244
Patient, satisfaction, waiting times, 162
Percutaneous, ultrasound-guided extraction, non-palpable, foreign bodies, 181
Perforation, pharyngeal, fish bone impaction, 71
Personnel, ambulance, can they intubate?, 347
Pharyngeal perforation, fish bone impaction, 71
Plasma, catecholamine, responses, asthma, 157
Pneumothorax, spontaneous, 250
Pneumomediastinum, spontaneous, 250
Poisoning, carbon dioxide, diver, 65

First published in 1976, the Journal of Clinical Pharmacy and Therapeutics has become internationally established among pharmacists in various disciplines and areas of specialization as a forum for communication of significant developments in clinical and hospital pharmacy. Its scope embraces the manufacture, quality control and formulation of medicines, drug information services, pharmacokinetics, radiopharmacy, organization and management of the hospital pharmacy, drug distribution systems, including unit dose system, clinical pharmacy education and all other aspects of clinical pharmacy.

Subscription Information
Journal of Clinical Pharmacy and Therapeutics is published bimonthly. Subscription rates for 1992 are £160.00 (UK), £168.00 (overseas) and US$285.00 (USA & Canada) post free.

The Official Journal of the Canadian Association of Emergency Physicians

Editor-in-Chief: Peter Rosen, MD, Emergency Department, University of California, San Diego Medical Center, 225 Dickinson Street, H-665-8A, San Diego, CA 92103 USA

JOURNAL OF EMERGENCY MEDICINE regularly features authoritative, timely articles pertinent to the practicing emergency physician. Published bi-monthly, JEM has earned a reputation for excellence in the field by offering in-depth reports on topics such as trauma, pediatric emergencies, prehospital care, and disaster management and information on new clinical techniques.

Selected Papers Include:

E.J. Gallagher and S.G. Lynn; The etiology of medical gridlock: causes of emergency department overcrowding in New York City.

J. Kuchinski, G. Tinkoff, M. Rhodes, and J.W. Becher JR, Emergency intubation for paralysis of the uncooperative trauma patient.

J.C. Johnson and G.L. Atherton; Effectiveness of nitrous oxide in a rural EMS system.

T.M. Roy, F.T. Dow, and D.L. Putnuff; Upper airway obstruction from AIDS-related Kaposi's Sarcoma.

Health Libraries Review provides a forum for the exchange of ideas and information among medical, health and welfare librarians. Interdisciplinary and international in scope, the journal publishes original material reflecting current practice and new developments in this field. Full length and review articles, news, reports of meetings, book reviews and letters are all included. It is the official journal of the Medical, Health and Welfare Libraries Group of the Library Association, and incorporates the Group's Newsletter.

Subscription Information
Health Libraries Review is published quarterly. Subscription rates for 1992 are £64.00 (UK), £67.00 (overseas) and US$115.00 (USA & Canada) post free. Members of the Medical, Health and Welfare Libraries Group of the Library Association can subscribe at the special rate of £19.00. Members of the European Association for Health Information and Libraries can subscribe at the special reduced rate of £38.00.

JOURNALS Osney Mead, Oxford OX2 0EL Telephone (0865) 240201
Medical Education provides an authoritative medium for the rapid publication of research papers and review articles of high quality in the field of medical education throughout the world. All topical issues of undergraduate, post-graduate and continuing education are covered, including selection of entrants, teaching methods, assessment technique, curriculum reform, and the training of medical teachers. The material is presented so that the problems, innovations and progress in different countries can be documented and transmitted to others in the field. The journal's function is to provide a link between the large number of bodies and individuals involved in medical education throughout the world, and it seeks to ensure that changes are made on the basis of informed decision.

Subscription Information
Medical Education is published bimonthly. Subscription rates for 1992 are £105.00 (UK), £110.00 (overseas) and US$190.00 (USA & Canada) post free.

Editorial correspondence should be directed to the Editor, A. D. Redmond, North Staffordshire Trauma Centre, Princes Road, Hartshill, Stoke-on-Trent, ST4 7GJ, U.K.

Manuscripts should be sent to the Editor of Archives of Emergency Medicine, Dr A. D. Redmond. Contributors must send three complete copies of the text, tables and figures and retain one copy as the Editor does not accept responsibility for damage or loss of papers submitted. Manuscripts must be typewritten on one side of the paper only, with wide margins, be double-spaced and bear the title of the paper and name and address of the author(s), together with the name of the hospital, laboratory or institution where the work has been carried out. The name and full postal address of the author to whom readers should address correspondence and offprint requests should be given on the first page; this will appear as a footnote in the Journal and the publishers will send the proofs to this author and address unless contrary instructions are written on the manuscript. An informative summary of not more than 200 words must be included, and should appear at the beginning of the paper, immediately after the title. The Editorial Board reserves the right to make literary changes. Papers should normally be divided into summary, introduction, methods (and/or materials), results, discussion, acknowledgements and references. SI units should be used throughout. The relative importance of headings must be clearly indicated. The main categories of heading are capitals, side bold and side italics. If necessary, small capitals may be used for subsidiary main headings. Papers are accepted on the understanding that they have not been and will not be published elsewhere and on acceptance they become copyright of the Journal. The printing of a letter to the Editor is considered a full publication and the above rules apply.

Illustrations should be referred to in the text as e.g., Fig. 2, Figs 2, 4–7, using Arabic numbers. Each figure should bear a reference number corresponding to the number in the text, and should be marked on the back with the name(s) of the author(s) and the title of the paper. Where there is doubt as to the orientation of an illustration the top should be marked with an arrow. Photographs and photomicrographs should be unmounted and glossy prints and should not be retouched. Colour illustrations are not acceptable. Diagrams should be on separate sheets; they should be drawn with black ink on white paper and should be at least twice the size of the final reproduction. Lines should be of sufficient thickness to stand reduction. Each illustration should be accompanied by a legend clearly describing it; these legends should be grouped on a separate sheet of paper.

Tables should be as few as possible and include only essential data; they should be typewritten on separate sheets and given in Roman numerals. A list of illustrations and tables should accompany the manuscript.

References The number of references should be restricted as much as possible. Journal titles should appear in full. References to books should include the editor(s), publisher and place of publication. In the text references should follow the Harvard style: Smith & Jones (1991) and Jones et al. (1991) if there are more than two authors. Check carefully that the references in the text and in the reference list agree. Where several references appear together in the text they should be listed in chronological order. If several papers by the same author from the same year are cited, a, b, c, etc. should be put after the year of publication. References should be listed, double-spaced at the end of the paper in alphabetical order of (first) authors as illustrated:

Proofs will be submitted to the author responsible for proof-correction (see under Manuscripts) and should be returned within three days. Major alterations to the text cannot be accepted.

Offprints Twenty-five offprints of each paper are supplied free, but additional copies may be purchased if ordered on the printed card which will be sent to the author with the proof.

Extraction services. The Journal is covered by Index Medicus, MEDLINE and Current Contents Clinical Practice.
