Archives of Emergency Medicine provides a forum for the publication, dissemination and discussion of original clinical and scientific research on all aspects of the subject. Particular emphasis is placed on the acute phase of surgical, medical, paediatric, obstetric and psychiatric emergencies, especially in relation to the diagnosis and management of the acutely ill. It is intended that resuscitation be a major component of the scientific content. The Journal, which has been adopted by the British Association for Accident and Emergency Medicine and the Emergency Medicine Research Society, publishes both original papers and review articles. Case reports or preliminary communications will be accepted if sufficiently noteworthy or interesting.

Subscription information. *Archives of Emergency Medicine* is published quarterly (one volume per annum) and the subscription prices for 1993 are £112.50 (Europe), £124.00 (rest of world) and \$219.00 (U.S.A. and Canada), in all cases post free.

Orders for current subscriptions and back issues should be sent to Blackwell Scientific Publications Ltd. Journal Subscriptions Department, Marston Book Services, PO Box 87, Oxford OX2 0DT, U.K. all other business correspondence, including orders for off-prints and advertising space, should be addressed to Blackwell Scientific Publications Ltd, Osney Mead, Oxford OX2 0EL (Telephone [0865] 240201; Telex 83355 Medbok G; Fax [0865] 721205). The Journal is dispatched within Europe by surface mail, to other continents by various forms of air speeded delivery: to the U.S.* by air freight for forwarding by second-class post, to India by air freight for guaranteed local delivery, and to all other countries by Accelerated Surface Post.

**Post Master, send address changes to Archives of Emergency Medicine c/o Mercury Airfreight International Ltd, 2323 EF Randolph Avenue, Avenel NJ07001 (US Mailing Agent) Second Class postage paid at Rahway NJ.*

This journal is printed on acid free paper.

MEDICAL EDUCATION

Published for the Association for the Study of Medical Education

Editor

Professor H.J. Walton

Medical Education provides an authoritative medium for the rapid publication of research papers and review articles of high quality in the field of medical education throughout the world. All topical issues of undergraduate, post-graduate and continuing education are covered, including selection of entrants, teaching methods, assessment technique, curriculum reform, and the training of medical teachers. The material is presented so that the problems, innovations and progress in different countries can be documented and transmitted to others in the field. The jour-

nal's function is to provide a link between the large number of bodies and individuals involved in medical education throughout the world, and it seeks to ensure that changes are made on the basis of informed decision.

Subscription Information

Medical Education is published bimonthly. Subscription rates for 1993 are £118.00 (Europe), £130.00 (overseas) and US\$229.00 (USA & Canada) post free.

EUROPEAN JOURNAL OF ANAESTHESIOLOGY

Editor-in-Chief **M.D. Vickers** *Cardiff*

Deputy Editors **P. Föex** *Oxford*

Assistant Editors **H. Burchardi** *Gottingen*, **J-M. Desmonts** *Paris*, **H. Haljamae** *Gothenburg*, **T.E.J. Healy** *Manchester*, **J.N. Horton** *Cardiff*, **M. Zimpfer** *Vienna*

The *European Journal of Anaesthesiology*, the official publication of the European Academy of Anaesthesiology, publishes original work of high scientific quality. Preference is given to experimental work or clinical observation in man, and to laboratory work of clinical relevance. The journal also publishes commissioned reviews by an authority in a field of interest to those working in anaesthe-

siology or intensive care. Abstracts of Academy meetings, editorials, book reviews, news and notices are also included.

Subscription Information

European Journal of Anaesthesiology is published bimonthly. Subscription rates for 1993 are £195.00 (Europe & overseas) and US\$360.00 (USA & Canada) post free.

JOURNALS

Blackwell Scientific Publications

Osney Mead, Oxford OX2 0EL Telephone (0865) 240201

Editorial correspondence should be directed to: M. A. Mason, Medway Hospital, Windmill Road, Gillingham, Kent ME7 5NY, U.K.

Manuscripts should be sent to Dr M. A. Mason. Contributors must send three complete copies of the text, tables and figures and retain one copy as the Editor does not accept responsibility for damage or loss of papers submitted. Manuscripts must be typewritten on one side of the paper only, with wide margins, be double-spaced and bear the title of the paper and name and address of the author(s), together with the name of the hospital, laboratory or institution where the work has been carried out. The name and full postal address of the author to whom readers should address correspondence and offprint requests should be given on the first page; this will appear as a footnote in the Journal and the publishers will send the proofs to this author and address unless contrary instructions are written on the manuscript. An informative *summary of not more than 200 words must be included*, and should appear at the beginning of the paper, immediately after the title. The Editorial Board reserves the right to make literary changes. Papers should normally be divided into summary, introduction, methods (and/or materials), results, discussion, acknowledgements and references. SI units should be used throughout. The relative importance of headings must be clearly indicated. The main categories of heading are capitals, side bold and side italics. If necessary, small capitals may be used for subsidiary main headings. Papers are accepted on the understanding that they have not been and will not be published elsewhere and on acceptance they become copyright of the Journal. The printing of a letter to the Editor is considered a full publication and the above rules apply.

Illustrations should be referred to in the text as e.g., Fig. 2, Figs 2, 4–7, using Arabic numbers. Each figure should bear a reference number corresponding to the number in the text, and should be marked on the back with the name(s) of the author(s) and the title of the paper. Where there is doubt as to the orientation of an illustration the top should be marked with an arrow. Photographs and photomicrographs should be unmounted and glossy prints and should not be retouched. Colour illustrations are not acceptable. Diagrams should be on separate sheets; they should be drawn with

black ink on white paper and should be at least twice the size of the final reproduction. Lines should be of sufficient thickness to stand reduction. Each illustration should be accompanied by a legend clearly describing it; these legends should be grouped on a separate sheet of paper.

Tables should be as few as possible and include only essential data; they should be typewritten on separate sheets and given in Roman numerals. A list of illustrations and tables should accompany the manuscript.

References The number of references should be restricted as much as possible. Journal titles should appear in full. References to books should include the editor(s), publisher and place of publication. In the text references should follow the Harvard style: Smith & Jones (1991) and Jones *et al.* (1991) if there are more than two authors. Check carefully that the references in the text and in the reference list agree. Where several references appear together in the text they should be listed in chronological order. If several papers by the same author from the same year are cited, a, b, c, etc. should be put after the year of publication. References should be listed, double-spaced at the end of the paper in alphabetical order of (first) authors as illustrated:

Anderson E., Folklow B., Hilton S. M. & Smith M. (1991) A study of assault victims attending an accident and emergency department. *Archives of Emergency Medicine* 8, 1–10.

Davidson F. & Carter S. (1991) Fractures in children. In: A. Smith (Ed.) *Paediatric Emergencies*, pp. 26–9. Blackwell Scientific Publications, Oxford.

Proofs will be submitted to the author responsible for proof-correction (see under **Manuscripts**) and should be returned within three days. Major alterations to the text cannot be accepted.

Offprints Twenty-five offprints of each paper are supplied free, but additional copies may be purchased if ordered on the printed card which will be sent to the author with the proof.

Extraction services. The Journal is covered by *Index Medicus*, *MEDLINE* and *Current Contents Clinical Practice*.
