

Primary survey

- 1 Highlights from this issue
I Maconochie

Editorial

- 2 Here is the NEWS
G Hughes

Review

- 3 Bedside ultrasound and the assessment of renal colic: a review
P J Dalziel, V E Noble

Original articles

- 9 Critical care in emergency department: massive haemorrhage in trauma
T Mahambrey, K Pendry, A Nee, S Bonney, P A Nee
15 What is the incidence of major adverse cardiac events in emergency department chest pain patients with a normal ECG, thrombolysis in myocardial infarction score of zero and initial troponin <=99th centile: an observational study?
A-M Kelly
19 Implementation of an evidence based guideline reduces blood tests and length of stay for the limping child in a paediatric emergency department
P J McCanny, S McCoy, T Grant, S Walsh, R O'Sullivan
24 Survey of the use of therapeutic hypothermia after cardiac arrest in UK paediatric emergency departments
B R Scholefield, M D Lytle, K Berry, H P Duncan, K P Morris
28 An analysis of predictive markers for intracranial haemorrhage in warfarinised head injury patients
S Rendell, J S Batchelor
32 Major trauma and urban cyclists: physiological status and injury profile
J Manson, S Cooper, A West, E Foster, E Cole, N R M Tai
38 Hanging-associated out-of-hospital cardiac arrests in Melbourne, Australia
C Deasy, J Bray, K Smith, S Bernard, P Cameron, On behalf of the VACAR Steering Committee

- 43 'Do you know where your cyanide kit is?': a study of perceived and actual antidote availability to emergency departments in the South West of England
L J Mitchell, I Higginson, J E Smith, L Swains, J Farrant, J Gagg, C Lindenbaum, N Mathieu

- 49 Nose and vein, speed and pain: comparing the use of intranasal diamorphine and intravenous morphine in a Scottish paediatric emergency department
L Regan, A R Chapman, A Celnik, L Lumsden, R Al-Soufi, N P McCullough

- 53 How well informed are patients when leaving the emergency department? comparing information provided and information retained
H Marty, Y Bogenstätter, G Franc, F Tschan, H Zimmermann

- 58 Survey of trainee attitudes to preparation for and participation in the FCEM examination
J G Cooper, E Rutherford, W Hamer

- 63 Assessment of adverse drug event recognition by emergency physicians in a French teaching hospital
L Roulet, F Ballereau, J-B Hardouin, A Chiffolleau, L Moret, G Potel, N Asseray

Short reports

- 68 ED, email, emess!
D S Hill, L Cowling, F Jackson, R Parry, R G Taylor, J P Wyatt
70 Emergency department presentations in determining the effectiveness of drug control in the United Kingdom: mephedrone (4-methylmethcathinone) control appears to be effective using this model
D M Wood, S L Greene, P I Dargan
