

**Primary survey**

**523** Highlights from this issue  
*S Carley*

**Commentary**

**524** Frequent attendance at the emergency department is a symptom but not a disease  
*S M Mason*

**Original articles**

**526** Frequent users of US emergency departments: characteristics and opportunities for intervention

*D T Vinton, R Capp, S P Rooks, J T Abbott, A A Ginde*

**533** Comparison of chest compressions in the standing position beside a bed at knee level and the kneeling position: a non-randomised, single-blind, cross-over trial

*J H Oh, C W Kim, S E Kim, S J Lee, D H Lee*

**536** Can a media campaign change health service use in a population with stroke symptoms? Examination of the first Irish stroke awareness campaign

*L Mellon, A Hickey, F Doyle, E Dolan, D Williams*

**541** Too tall for the tape: the weight of schoolchildren who do not fit the Broseelow tape

*G N Catermole, P Y M Leung, C A Graham, T H Rainer*

**545** Using a mobile app and mobile workforce to validate data about emergency public health resources

*A M Chang, A C Leung, O Saynisch, H Griffiths, S Hill, J C Hershey, L B Becker, D A Asch, A Seidman, R M Merchant*

**549** Shorter time until return of spontaneous circulation is the only independent factor for a good neurological outcome in patients with postcardiac arrest syndrome

*T Komatsu, K Kinoshita, A Sakurai, T Moriya, J Yamaguchi, A Sugita, R Kogawa, K Tanjoh*

**556** Career choices for emergency medicine: national surveys of graduates of 1993–2009 from all UK medical schools

*E Svirko, T Lambert, L Brand, M J Goldacre*

**562** Evaluating the construct of triage acuity against a set of reference vignettes developed via modified Delphi method  
*M Twomey, L A Wallis, J E Myers*

**567** Patient expectations of minor injury care: a cross-sectional survey  
*J Whiteley, S Goodacre*

**571** High rates of head injury among homeless and low-income housed men: a retrospective cohort study  
*T Svoboda, J T Ramsay*

**576** Systemic antibiotics after incision and drainage of simple abscesses: a meta-analysis  
*A J Singer, H C Thode Jr*

**579** The value of the difference between ED and prehospital vital signs in predicting outcome in trauma  
*S R Bruijns, H R Guly, O Bouamra, F Lecky, L A Wallis*

**583** Characteristics and outcomes of patients administered blood in the prehospital environment by a road based trauma response team  
*D Bodnar, S Rashford, C Hurn, J Quinn, L Parker, K Isoardi, S Williams*

**Short reports**

**589** Impact of stops for road traffic accidents on the inter-hospital transport of critically ill children  
*S Raman, P Ramnarayan*
