Primary survey

701 Highlights from this issue

I Maconochie

Triage

702 How good is triage, and what is it good for?

K Challen

703 Five-level emergency triage systems: variation in assessment of validity

A Kuriyama, S Urushidani, T Nakayama

711 Validity of triage systems for paediatric emergency care: a systematic review

M C de Magalhães-Barbosa, J R Robaina,

A Prata-Barbosa, C S Lopes

720 Comparison of prehospital triage and five-level triage system at the emergency department

L-H Tsai, C-H Huang, Y-C Su, Y-M Weng,

C-H Chaou, W-C Li, C-W Kuo, C-J Ng

726 Building a visual aid for a triage tool in a developing health service

M S Ahmad, D R Wood

Resuscitation

728 Relationship between non-technical skills and technical performance during cardiopulmonary resuscitation: does stress have an influence?

R Krage, L Zwaan, L Tjon Soei Len, M W Kolenbrander, D van Groenigen, S A Loer, C Wagner, P Schober

734 Randomised clinical simulation designed to evaluate the effect of telemedicine using Google Glass on cardiopulmonary resuscitation (CPR)

N Pérez Alonso, M Pardo Rios, L Juguera Rodriguez, T Vera Catalan, F Segura Melgarejo, B Lopez Ayuso, C Martínez Riquelme, J Lasheras Velasco

739 Effect of patient weight on first pass success and neuromuscular blocking agent dosing for rapid sequence intubation in the emergency department

A E Patanwala, J C Saksles

Utilisation

744 Can more appropriate support and services be provided for people who attend the emergency department frequently? National Health Service staff views

S Ablard, E Coates, C Cooper, G Parry, S M Mason

749 Introduction of a new imaging guideline for suspected renal colic in the ED reduces CT urography utilisation

G Blecher, R Meeke, D Egerton-Warburton, P McCahy

755 Use of a 23-hour emergency department observation unit for the management of patients with toxic exposures

R Mong, G J Arciaga, H H Tan

Global Emergency Medicine Highlights

761 Abstracts from international Emergency Medicine Journals

E J Weber

Best evidence topic reports

763 Towards evidence based emergency medicine: best BETs from the Manchester Royal Infirmary

K Mackway-Jones

763 BET 1: Does the use of emollients prevent frostbite to the face?

E De Buck

764 BET 2: Should children with sport-related concussion observe strict physical rest until symptom-free?

A C Kline
