

Primary survey

491 Highlights from this issue
I K Maconochie

Commentaries

492 Emergency medicine pharmacists on an international scale
Z Coralic, B D Hayes

494 'Major trauma': now two separate diseases?
T J Coats, F Lecky

Original articles

495 Clinical relevance of pharmacist intervention in an emergency department
M A Pérez-Moreno, J M Rodríguez-Camacho, B Calderón-Hernanz, B Comas-Díaz, J Tarradas-Torras

502 Developing a decision rule to optimise clinical pharmacist resources for medication reconciliation in the emergency department
S De Winter, P Vanbrabant, P Laeremans, V Foulon, L Willems, S Verelst, I Spriet

509 Traumatic brain injuries in older adults—6 years of data for one UK trauma centre: retrospective analysis of prospectively collected data
C Hawley, M Sakr, S Scapinello, J Salvo, P Wrenn

517 Validating the Manchester Acute Coronary Syndromes (MACS) and Troponin-only Manchester Acute Coronary Syndromes (T-MACS) rules for the prediction of acute myocardial infarction in patients presenting to the emergency department with chest pain
J H Greenslade, R Nayer, W Parsonage, S Doig, J Young, J W Pickering, M Than, C Hammett, L Cullen

Prehospital care

526 'The year of first aid': effectiveness of a 3-day first aid programme for 7-14-year-old primary school children
B Banfai, E Pek, A Pandur, H Csonka, J Betlehem

533 Can the prehospital National Early Warning Score identify patients most at risk from subsequent deterioration?
J Shaw, R T Fothergill, S Clark, F Moore

Concepts

538 A practical approach to Events Medicine provision
S P Smith, J F Cosgrove, P J Driscoll, A Smith, J Butler, P Goode, C Waldmann, C J Vallis, F Topham, M Mythen

Review

543 Emergency Department care of childhood epistaxis
E Béquignon, N Teissier, A Gauthier, L Brugel, H De Kermadec, A Coste, V Prulière-Escabasse

Global Emergency Medicine Highlights

549 Abstracts from international emergency medicine journals
E J Weber

Best evidence topic reports

551 Towards evidence based emergency medicine: Best BETs from the Manchester Royal Infirmary
J Baombe

551 BET 1: Lidocaine with propofol to reduce pain on injection
J P Baombe, L Howard

553 BET 2: Poor evidence on whether teaching cognitive debiasing, or cognitive forcing strategies, lead to a reduction in errors attributable to cognition in emergency medicine students or doctors
G Oliver, G Oliver, R Body
