Emergency Medicine Journal (EMJ), a leading international journal with a commitment to publishing high quality research, evidence based reviews and provocative commentary of relevance to practitioners working in emergency settings, including emergency departments, as well as prehospital, rescue and disaster and urgent care settings. We believe that the journal should reflect perspective and experiences of practitioners in both developed and developing nations, so that we can learn from each other.

Editor-in-Chief
Ellen J Weber (USA)

Deputy Editor
Richard Body (UK)

Emergency Medicine

Associate Editors
Simon Carley (UK) Emergency Medicine
