Emergency Medicine Journal (EMJ), a leading international journal with a commitment to publishing high quality research, evidence based reviews and provocative commentary of relevance to practitioners working in emergency settings, including emergency departments, as well as prehospital, rescue and disaster and urgent care settings. We believe that the journal should reflect perspective and experiences of practitioners in both developed and developing nations, so that we can learn from each other.

Guidelines for Authors and Reviewers
Full instructions are available online at http://emj.bmj.com/pages/authors/. Articles must be submitted electronically http://mc.manuscriptcentral.com/emj. Authors retain copyright but are required to grant Emergency Medicine Journal an exclusive licence to publish (http://emj.bmj.com/pages/authors/).
